IMPORTANT

To avoid risk of electrical shock do not expose to water or damp.
Always connect your instrument cable to your guitar before connecting to your amplifier. Connecting to your amplifier first may cause damage to the speaker.
Do not leave your guitar unattended with the volume turned up.
Neon or fluorescent lighting near the amplifier may cause slight hum or noise. This can frequently be eliminated by changing the position of your instrument or the amplifier and using cables with good shielding.
To avoid injuring your ears or damaging your headphones, reduce amplifier volume before plugging in your headphones.
Plugging in headphones will turn off your amplifier speaker.
Always unplug amp from mains before replacing the fuse.
