PRODUCT FEATURES

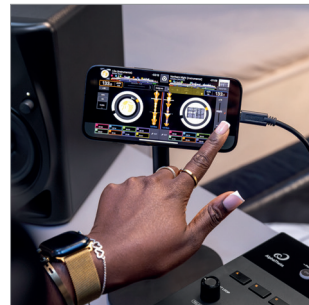

Access to streaming services

With StreamingDirectPlay, you can access tracks from compatible streaming services directly on the XDJ-AN and mix them seamlessly with music from other sources.

Cloud-based playlist editing

Using Cloud Library Sync with a compatible rekordbox subscription plan, it's easy to manage your cloud-based music library directly from the XDJ-AN. The changes you make on the unit, such as adding Hot Cues and editing playlists, are automatically synchronized with the cloud.

Works with mobile apps

The XDJ-AN works with DJ apps such as rekordbox for iOS and djay for iOS. The unit also supports the DJM-REC app for live streaming and recording.

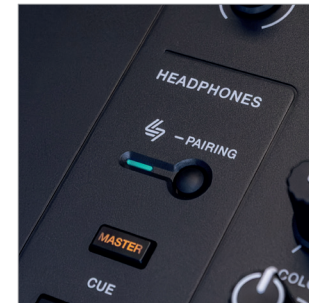

* rekordbox™ is a trademark or registered trademark of AlphaTheta Corporation.

* Other product, technology, and company names, etc. mentioned herein are trademarks or registered trademarks of their respective owners.

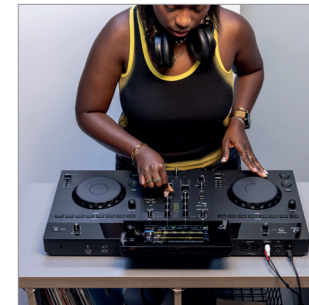

Club-standard layout and media compatibility

With a layout based on the professional CDJ and DJM series gear, the XDJ-AN helps ensure a smooth transition from DJ controllers to club-standard setups. You can connect a laptop to perform with DJ software such as rekordbox for Mac/Windows, Serato DJ Lite, or djay Pro, or you can play music stored on USB drives.

Built-in SonicLink transmitter

Thanks to the built-in transmitter for SonicLink, AlphaTheta's ultra-low-latency wireless audio technology, you can pair the XDJ-AN with compatible headphones and start monitoring wirelessly right away.

High-quality sound and flexible connectivity

The XDJ-AN delivers clear and powerful audio at all volume levels. As well as its XLR outputs for professional equipment and RCA outputs for connecting to a wide range of audio devices, it features Bluetooth input/output for extra flexibility.
