# NUX Mighty Plug Firmware update guide

1. Download the firmware from support section/tap of the MP-2 product page.

2. Connect the NUX Mighty Plug(MP-2) to your computer(Windows/Mac OS) using a **quality data/sync cable.** Run the downloaded "NUX Firmware Updater".
3. Press and hold down the **Adjust button** then **power on** the device , release the button until you see device connected(This should only take about 3-5 seconds).
4. Click "Select File" to choose the downloaded firmware and then click "Start Update" to proceed. DO NOT disconnect or power off the device until the DFU updater displays "Update finish".
5. Close the "NUX Firmware Updater". Restart the device to enjoy the added features.
